

Elon

ReSolute

WORLDWIDE
based in New York

Elon has played several influential roles in shaping New York's vibrant underground music scene, developing the ReSolute brand across the globe and organizing some of the most cutting edge underground events.

Whether he is headlining at nightclubs or playing a marathon set for an underground afterhours event, Elon's timeless musical style glides between house and techno, from dark and emotive to the more rhythmic and uplifting tones of electronic music. His sharp ear for detail is reflected in his fluid sets and immaculate productions – a skill honed from his rich instrumental background and years of experience working as a sound engineer.

Since his first release in 2006 on Made to Play, Elon has produced several successful EPs and remixes on labels such as Get Physical, Clink, Dumb-Unit and Metroline.

A perfectionist in the studio as well as in his sets, Elon constantly seeks to showcase sophistication and detail in style and sound. Elon has always believed that quality is paramount over quantity. His releases, like Bummalo with Maceo Plex, Noose and Fuck Cuba EPs have received global critical acclaim.

In 2011, Elon launched his own imprint, ReSolute Label. The project stemmed from his residency at ReSolute, New York's innovative dance music phenomenon. At the end of 2012 Elon produced the label's fifth release, 'Kolekti' EP, a collaboration EP including tracks from Alexi Delano, Dario Zenker and other artists from the ReSolute family. Keep an eye out for his 2nd EP on

ReSolute Label in September, his eagerly awaited debut album and a brand new live performance that he has been moulding for the past year.
